

The Arkansas Health Information Management Association is hosting an Information Governance and Data Analytics Workshop on June 8, 2017. Katherine Dowling, MA, RHIA, CHPS,PMP, Senior Director of AHIMA Information Governance will be the guest speaker. The workshop will be held at UAMS-College of Public Health, Auditorium Room 8240 from 8:00 am – 4:30 pm. Lunch will be provided.

Get hands-on training to advance analytics and implement an information governance program in your organization.

- Understand the importance of analytics to the healthcare ecosystem
- Understand how data analytics can improve work processes and reporting practices.
- Learn and develop new skills to move forward with changes in healthcare data processes.
- Advance privacy and security practices through enterprise wide information governance processes.
- Increase regulatory compliance through data analytics and data governance.
- Reduce costs, increase quality, and support population health activities.
- Advance analytics and business intelligence in your organization.

This workshop will be beneficial for your organization. The price is \$100.00 for members and \$150.00 for non-members. AHIMA members will receive 7 AHIMA CEU's.
