

Faculty

Jason Smith has a background in Architecture & Engineering with over 15 years experience with the design and construction of high performance "green" buildings and over 5 years experience as a LEED Accredited Professional integrating sustainable design solutions into facilities that address energy efficiency and contribute to reducing their environmental impact.

Jason is celebrating 3 years with Miura North America directing energy & environmental initiatives with a focus on energy efficiency advocacy, education & market transformation in the area of thermal energy systems.

Jason currently chairs the Energy Efficiency Deployment Sub-committee of the Department of Energy's ITP Steam Systems BEST PRACTICES Steering Committee and is an active member of the following organizations devoted to energy efficiency & sustainability: ASHE, USGBC, AEE, ESC, ACEEE, ASE, IDEA & APPA.

Continuing Education

Certificates of attendance for 4 hours will be issued to all registrants attending the entire conference.

Refunds and Cancellations

The registration fee, less 50% service charge is refundable if cancellations are received in writing five business days prior to the date of the workshop. Substitutions are permitted. Registrations that are phoned in or faxed are subject to the same cancellation policy.

(Note: All cancellations must be received in writing by the registrar.)
