

AHA Analytics

Individual User Agreement for Access to Hospital-Specific Reports

Individuals requesting access to the AHA Analytics reports containing hospital-specific data are required to comply with the AHA Analytics Data Release Policy for Hospital-Specific Reports. Please complete this request for online access to hospital-specific reports and return it to Donald McCormick, Director of Analytics and Financial Policy.

Once a completed User Agreement and system/facility approval are received, the authorized user will be provided with log-on credentials to access the data.

Agreement

I have read and agree to comply with the AHA Analytics Data Release Policy for Hospital-Specific Reports, as it may be amended from time to time. I acknowledge that such data policy applies to AHA Analytics data available online, in printed format, or on other media such as DVD or CD.

I further acknowledge my responsibility to inform anyone with access to this information of the policy and its intent that these hospital-specific data are to be used only by the hospital.

I further agree to not share my password or allow anyone to access the data by using my password.
